## **FOR IMMEDIATE RELEASE**

### **PLANETARY HERBALS INTRODUCES LOQUAT RESPIRATORY SYRUP FOR KIDS**

#### ***SUPPORTS CLEAR, HEALTHY LUNGS***

Scotts Valley, California. Planetary Herbals presents LOQUAT RESPIRATORY SYRUP FOR KIDS, a safe, effective blend of botanical ingredients from all over the world for clear, healthy lungs. The syrup is designed particularly for children ages 1-18.

Loquat leaves have been used in traditional Chinese herbalism for centuries and are renowned for supporting clear, relaxed lungs. To the base of loquat, botanicals from America, Asia, and the Middle East are combined for a soothing, efficient tonic for lung health.

The main ingredient of the syrup comes from the loquat tree. The leaves of the loquat have been used in China since at least the 6<sup>th</sup> century, and they are well known as one of the most effective, powerful supports for clear, healthy lungs.

Planetary Herbals herbalist Roy Upton says, "Loquat is one of those key botanicals that have been used by common people and herbal practitioners for centuries because of their prevalence and desirability. The addition of Slippery Elm bark, which is legendary for its soothing properties, makes LOQUAT RESPIRATORY SYRUP FOR KIDS a great blending of the best of East and West."

Planetary Herbals integrates the best of worldwide herbal traditions with modern clinical and pharmacological research. The result is an herbal product line that is unequalled for efficacy, safety, and dependability. For more information or purchase locations, please visit <http://www.planetaryformulas.com>.
